REGZA

ADVANTAGE TOSHIBA

Cinespeed™ panel LCD sets provide the lightning fast (8 ms or less) response time required by the most demanding home theater enthusiasts.

PixelPure™ Hi-Bit processing means a smooth transition from dark parts of the picture to light, with over 4,000 steps, for significantly more natural images.

Wide 176° viewing angle means everyone in the room can enjoy the show.

SRS® WOW™ greatly improves audio performance with improved fidelity and wider "sweet spot" for the listener.

HDMI™ Digital Input provides uncompressed digital video and digital audio in one convenient cable for connection from home theater components.
